This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFATORY NOTE

In the preparation of the original schedules, use was made of printed classifications, bibliographies, and catalogs, as well as an outline scheme drawn up by Dr. Roland P. Falkner, and suggestions from the Harvard University Library. The application to the collections in the Library, involving many additions and great extension of detail, was made by Mr. Charles Martel, then chief classifier, assisted by Mr. William Dawson Johnston, Mr. Luis Perez, and Mr. Edwin Wiley.

Schedules HS and HT, prepared by the undersigned, who has been in charge of Class H since 1907, are based to a large extent on the material in the Library of Congress, altho other printed classifications and bibliographies have been consulted. The scope of Class HT has been intentionally restricted to the general literature of the strictly sociological aspect of the groups included, hence the unusually large number of *see* references.

In preparing this second edition the schedules for Social Sciences have received no fundamental change. Since the first edition was printed in 1910, many new sections have been added from time to time as the growth of the literature demanded, including the scheme for HT, which was separately printed in 1915. These additions have been incorporated in the present edition; the schemes for geographical distribution have been, as far as possible, brought up to date; and numerous verbal additions and changes in form of statement, which experience has shown would work for clearness, have also been made.

The preparation of the present edition for the press has been made under the supervision of the Chief Classifier, Mr. Clarence W. Perley.

History and Antiquities.

General commercial history, works on ancient and medieval commerce and general modern commerce are classified here. Works on the commercial history of a given country go in HF 3211–4040.

Works on the commerce of two countries go with the more important in HF 3050–3150 or HF 3211–4140; cf. note under subdivision (8) in the table of subdivisions following HF 3211.

Works on the commerce in a particular commodity go under the commodity in HD 9000+, S, T, etc. When such works are limited to the trade of one particular country (e. g. Coffee—Brazil), they may go with the history of the commerce of the country if that appears to be the primary object of the book, but in doubtful cases the commodity is to be given the preference.

Documents, in HV 87.

State and city in HV 98 and 99, are subdivided:

(1) General works.

(2) Particular institutions.

Associated charities, charity organization societies, etc., included under (2).

NOTE.

Documents relating to American charities in general go in HV 85.

Documents relating to all charities in a given state, or to several of them, go in HV 86. Reports of Boards of charities, etc., should be placed here, even if at the time the Board has only one institution under its supervision.

Documents relating to all charities in a given city, or to several of them, go in HV 87. Reports of city Boards of charities, etc., should be treated like state boards.

Reports of separate institutions, *even if documents in form*, go under the institution in HV 98 or 99.

Non-official works on American charities in general go in HV 90, 91, 95, according to subject matter.

By country.

United States.

NOTE—Continued.

Non-official works on the charities of a state go in HV 98, under the state, subdivision (1); under subdivision (2) put reports of public institutions, supported by the state and ministering to the whole or a part of the state.

Non-official works on the charities of a place go in HV 99, under the place, subdivision (1).

Reports of, and works on, particular private charities go in HV 99 under place, subdivision (2), even if state-wide in scope.

Special rule for the District of Columbia:

Put documents, serial (except reports) and non-serial in HV 86.

Put general non-official material, and non-official works relating to a particular institution in HV 99, Washington (1) or (2).

Put reports of *separate* institutions in HV 99, Washington (2) *even if documentary in form.*
